

Aktru Journey

Graphs and Groups, Representations and Relations

Geyser Lake

Small thermal lake outside the Aktrash village. In the centre of the lake thermal springs bring up beautiful blue mud. Very impressive!

Glacier Aktru

Blue Lake

Little gem of Aktru. Water in the lake is +2 ° C. Despite this, there's always somebody who can not resist to 'bathe'.

We are glad to finally introduce our 'pre' G2R2 Altai tour!

The entire route in detail (each day separately with all landmarks) is shown [here](#) (clickable).

Route Outline:

2.08.2018 Road to Biysk

Novosibirsk GI - Biysk: train № 601H, 22:12 local, 9 h. 29 min., 07:41 local

3.08.2018 Minibus meets us near the train station where we start our trip to Aktru (all the way we're accompanied by English guide). This part of the trip is shown as a '1st Day' on the map.

4.08.2018 Tracking day, Aktru mountain ('2d Day' on the map). There are plenty of routes, 1/3/5/10/15km and more. Some other activities are also available.

5.08.2018 Road to Novosibirsk

Biysk - Novosibirsk GI: train № 602, 20:13 local, 9 h. 29 min., 05:42 local

Absolutely all trip expenses (accommodation, meals 3 times a day, transport, english guide) are covered by **13200 Russian Rubles** except for the train from Novosibirsk to Biysk and back (alternative transportation options are available, bus for example). We are open to discuss your desires.

Join us at this incredible opportunity! Any questions: g2@math.nsc.ru
