

INTERNATIONAL WOMEN IN MATHEMATICS DAY

We welcome you on to the online launching of the video

«Words of Women in Mathematics in the Time of Corona».

This film, which will be visible on <https://www.wpi-aimr.tohoku.ac.jp/WWMTC/> as from May 12th, collects words of 86 women in mathematics from 37 countries in 25 languages, who share with us their experience during the pandemic.

On May 12th, at 10 am (CET), the filmmaker Irina Linke, and various women who contributed, will tell us about their experience around the project in a Zoom Meeting: <https://us02web.zoom.us/j/4987751829?pwd=ZmFjT1FNbW5SSzE3N0hrUmY2ekF1UT09> (meeting ID: 850 7783 7874; passcode: WWMTC).

On May 12th at 5pm (CET), the ICMS (International Centre for Mathematical Sciences) in Edinburgh, will present a film launch and international panel discussion: <https://www.eventbrite.co.uk/e/words-of-women-in-mathematics-in-the-time-of-corona-tickets-153855675467>

The project emanated from a group of mathematicians following informal conversations about their experience during the pandemic. It is a follow-up of the film project “Faces of Women in Mathematics” (<https://vimeo.com/259039018>). Three years after this movie and with a year of pandemic behind us, we invite you to listen to the words of women in mathematics. This pandemic has indeed made women, and in particular women in mathematics, more invisible than ever and we hope that this project will contribute to letting them be heard and seen.

The team members:

Eugenie Hunsicker, Irina Linke, Sonia Mahmoudi,
Claudia Malvenuto, Eriko Shinkawa, Sylvie Paycha
